PROFESSIONAL SUMMARY

Computer Science Engineering (Artificial Intelligence & Machine Learning) undergraduate at Sethu Institute of Technology with a strong foundation in Python, Java, SQL, IoT, and Web Development. Passionate about building intelligent software and embedded systems through real-world projects. Quick learner with strong problem-solving skills and an interest in AI, Full Stack Development, and Product Development. Seeking opportunities to contribute as a Software Developer or AI Engineer.

EDUCATION

B.E – CSE (AI & ML) 2023 – 2027 | 82%
Sethu Institute of Technology

Higher Secondary (Class XII) 2022 – 2023 | 85%
Katie Wilcox Matriculation Hr. Sec. School

TECHNICAL SKILLS

Programming Languages	Python, Java, SQL
Web Technologies	HTML, CSS, JavaScript
IoT & Embedded	Arduino UNO, ESP32, Embedded C, Arduino IDE
Tools & Platforms	VS Code, GitHub, Figma, Canva, Tinkercad

PROJECTS

Smart Incubation System for Newborn Pups (IoT) **ESP32, Arduino UNO, Embedded C, Sensors**
- Designed an IoT-enabled smart incubator with real-time environmental monitoring using temperature and humidity sensors.
- Integrated automated alert mechanisms for improved newborn pup care and safety.

Smart Lock System (IoT) **Embedded C, Tinkercad, Sensors**
- Built an IoT-based smart lock with password authentication and motion detection for enhanced security.
- Simulated and validated the full system in Tinkercad with real-time monitoring capabilities.

Placement Readiness Calculator **Python, Flask, HTML, CSS, JavaScript**
- Developed a full-stack web application evaluating placement readiness across aptitude, technical, communication, and project competencies.
- Generated personalised improvement recommendations to enhance student employability.

CERTIFICATIONS

- **IIT Bombay** – e-Yantra Lab Setup Initiative (IoT Level) - Project-Based Robotic Training
- National Level Workshop on DITTO Security - Conducted by NIT
- Attended one day Workshop on Block Chain Technology - Conducted by NPR College of Engineering and Technology

ACHIEVEMENTS

- Won **Best IOT Innovation Award** in **RuralTech** at Sethu Institute of Technology
- NPTEL – Human Computer Interaction · **Elite + Gold**
- NPTEL – Industry 4.0 & Internet of Things · **Elite + Silver**
- Participated in Inter-College Hackathon at Sethu Institute of Technology, Virudhunagar.

AREAS OF INTEREST

• Artificial Intelligence • Internet of Things • Robotics • Product Development • Full Stack Development • Automation
